Dublin 4

28th September 2001

Dear Anne,

My address is as above.

I have only briefly read the international application. I noticed a mistake in Table 1 of Example 5 (page 17). The amount of NaNO_2 added in grams should be larger by a factor of ten in the final 3 entries of Table 1. I have made the adjustments in blue ink next to table.

I've made another adjustment on page 22. Is it possible to include another row/entry in Table 6 i.e. 0 hours and an amino content of 0.74?

Yours sincerely,

Ruth Russell.
